### **Nuclear Fuel Services names new President**

**ERWIN, Tn. – March 1, 2010** – Nuclear Fuel Services (NFS) has announced that David Amerine is named President for NFS. Mr. Amerine will be responsible for all NFS operations.

Mr. Amerine has over 40 years of experience with increasing levels of responsibility in the nuclear industry, grounded by exemplary service in the United States nuclear navy. Mr. Amerine joined Babcock & Wilcox, Technical Services Group in 2009 as vice president for technical services. From 2005 and until joining the B&W team, Mr. Amerine worked for the Parsons Corporation, where he held the position of senior vice president for systems, defense and security, and was responsible for the development and execution of business at the Savannah River Site. Prior to his tenure at Parsons, Mr. Amerine was executive vice president and deputy general manager for the CH2M Hill Nuclear Business Group.

Mr. Amerine is a graduate of the United States Naval Academy, with a bachelor of science degree in nuclear physics and math; the United States Naval Post Graduate School with a master of science degree in management science; and the Harvard Business School, Advanced Management Program.

#### **About NFS**

*Located in Erwin, Tennessee, NFS operates a fuel production facility to support America's fleet of nuclear-powered submarines and aircraft carriers. It also converts Cold War-era government stockpiles of highly enriched uranium into commercial nuclear reactor fuel. NFS is licensed by the Nuclear Regulatory Commission and employs more than 700 workers. The company is located on the internet at [www.nuclearfuelservices.com](http://www.nuclearfuelservices.com).*
